

Applications by Design, Inc. (ABDI) **Resident Web Package** is one of our most useful and popular add-on features. It integrates seamlessly with ABDI's security software, thus allowing security personnel to focus on their primary task - welcoming guests into the community. The Resident Web Package gives residents with Internet access the ability to perform a variety of useful functions without interfering with guardhouse operations or putting the community's data at risk.

## KEY FEATURES:

- Allows owners complete control over their **guest lists**
- Allows owners the management of their **contact information**
- Provides instant **Guest Arrival Notifications** via emails, push notifications and/or text messages to all major cell service providers
- Provides access to the each owner's own **entry logs**; searches, grouping and filtering is available on the web site
- Allows the entry and management of vacation notifications, emergency contacts, and pets (including the uploading of a **pet picture**)
- Allows administrators to upload **community documents** for the convenience of the owners, in addition to community news and important phone numbers
- Provides mobile **apps** for iOS and Android devices, without an additional charge
- Provides a community resident **directory**
- Provides access to a ABDI's **Mass Notifications System** (charges apply per blast; Delivery available via emails, text messages and/or recorded voice message)
- Provides a **rental portal** for communities that purchase the module
- Provides a READ ONLY view of owners/occupants and of address assigned **vehicles**
- Optionally, allows owners to email a QR code to a guest, to be printed or presented on their phone for fast entry through the gate (requires ABDI's **FastAccess** module)

## SECURITY:

- HTTPS web site is **secured** with a 256bit certificate
- Data remains on the community's server; it passes to the web site through an **encrypted** VPN tunnel
- More than 3 consecutive failed logins result in the **blocking** of an IP for 60 minutes
- Owners **log in** initially with their primary phone and code number, but are able to change the login once in
